

Core Value

Bringing together real cost savings and quality employee benefits

Offer your clients a better way to provide quality benefits for less.

The Core Value plan from National General Benefits Solutions can get your clients on the right track to help lower their health care costs. Core Value is a reference-based pricing plan that helps your clients save money.

Core Value pays benefits based on a multiple of the Medicare reimbursement rate,¹ regardless of the amount charged by the provider. That keeps costs down, giving you a way to meet the needs of more small to mid-sized business clients.

Core Value features:

- ✓ No network restrictions,² freedom to use any provider.
- ✓ Access to Teladoc® and Healthcare Bluebook™ to manage health care costs.³
- ✓ Member Advocacy Program, our dedicated support team that makes navigating the system simple.
- ✓ Clients can also elect to add the wellness program from Vitality® to keep members healthy.

Core Value doesn't stop there. Give your clients options:

Core Value Access⁴

Offer the cost savings of reference-based pricing, with access to network physicians. Members get secured network discounts for the physicians they know and trust.

Core Value Flex⁵

The flexibility of this plan allows clients to choose a reference-based pricing plan with the option of switching to a PPO network mid-year — without a change in their monthly payment.

Grow your business with Core Value.
