

# Core Value

## It's time to take control of your health care costs

Lower your health care costs with Core Value, a reference-based pricing plan from National General Benefits Solutions. Core Value pays benefits based on a multiple of the Medicare reimbursement rate,<sup>1</sup> regardless of the amount charged by the provider. This helps lower costs while still providing the same quality benefits your employees have come to expect.

We offer a suite of products, such as Core Value Flex and Core Value Access<sup>2</sup>, so you can build a plan to fit your business model and employees' needs. See individual flyers for more information.

1 In instances when a service is not priced by Medicare, reimbursement is based on a derived equivalent.  
2 Pharmacy benefits and transplants still rely on the use of network providers, Core Value Access offers network usage.  
3 As long as there are no changes to your group's benefits or enrollment.  
4 Healthcare Bluebook is not available with Core Value Access.  
Not available in: CA, CO, DC, HI, MD, NY, and RI  
This plan pays providers based on a multiple of the Medicare reimbursement rate (or derived equivalent) for each service received. There is no correlation between the Healthcare Bluebook Fair Price service and a provider accepting the payment made by the Core Value plan.
